He's always got a real fine woman on his arm.

Good evening, Mr. Ozaki.

Goddammit! Can't you even apologize !?

You flatter us, sir. We are simply serving you with the most effort and love we can give.

I'm looking forward to staying here again over the coming year. All the other hotels seem like cheap lodges compared to the Babel.

Welcome to the Babel. I'm the concierge, Yokomizo.

I'm Naomi.

She's so beautiful...

Well, you're hardly a becoming guest for the Babel.

Guardian of time?

My name is Yang. I'm the guardian of time.

Allow me to introduce myself.

If I hadn't been there, the 9/11 terrorist attacks on the United States would have caused World War III.

I can stop time for five minutes, and rewind time for seven days.

I've used this to protect the world from crisis.

That is why I have decided to entrust you with the future of the world.

But why me?

Don't be too quick to call this a nightmare.

Is this... a night-mare?

As you can see, I can barely walk now.

Are you giving me another test run?

I assume it'll take more than words to convince you, right?

I'll explain as we go along

No! This time, it's showtime!

The international terrorist hacker that started World War III was lodging here, in the Astel.

We know nothing about this terrorist, not even their gender

Your job is to locate and eliminate this terrorist by New Year's Eve, Kofa.

How do you know my name...?

E... Elimi-nate ...?

But I can't just kill someone!

I told you, I'll explain later. If you run into any problems, see me in this room.

I will explain the rules of time to you then, as well.

54

Not even to save someone you care about?

Yukiko...

Wait! I can't do this!

55

Akiyo-shi?

He will be your guide. He always hangs out at the bar, drinking a Martini on the rocks.

Ask for a man named Akiyoshi in the Babel's bar.

"Time travels in divers paces with divers persons."

Kota, I leave you with the words of Shake-speare.

I've gone back... seven days...

To protect someone... I care about...

Oh...

Looks like that old geezer gave me a real shitty present.

Excuse me...

Merry Christmas... So who are you, anyway?

Yang sent me.

And how long do you plan on staying here, M'am?

Let's see... Why not a week? I'll be staying here until New Year's Eve.

The Tragedy of Christmas Eve

The international terrorist hacker was lodging at this hotel.

The Tragedy of Christmas Eve

We know nothing about this terrorist, not even their gender.

Your job is to locate and eliminate this terrorist by New Year's Eve, Kota.

Ask for a man named Akiyoshi in the Babel's bar.

He will be your guide.

He always hangs out at the bar, drinking a Martini on the rocks.

...Hey, kid.

You drunk?

I'm dying!

I'm dying!

I'm dying!

You really think you'd die on Christmas Eve?

¡ENIHO W.I

¡ENIHO W.I

Our fancy dinner's getting cold.

Since you're a hotel keeper, do you know what kind of gin they use as the base for martinis at this bar?

I-I don't know.

It's Beef-eater.

Oh...

"Beefeater" is also what they called the London mercenary drawn on the bottle.

You think that's trivial, don't you?

They used to be given rations of beef as payment.

What was Yang thinking... sending me to this man?

But it's something you can use to pick up the ladies in a trendy place like this!

Huh...?

So what can you do for me, kid?

H...!!

W-Where are you going?

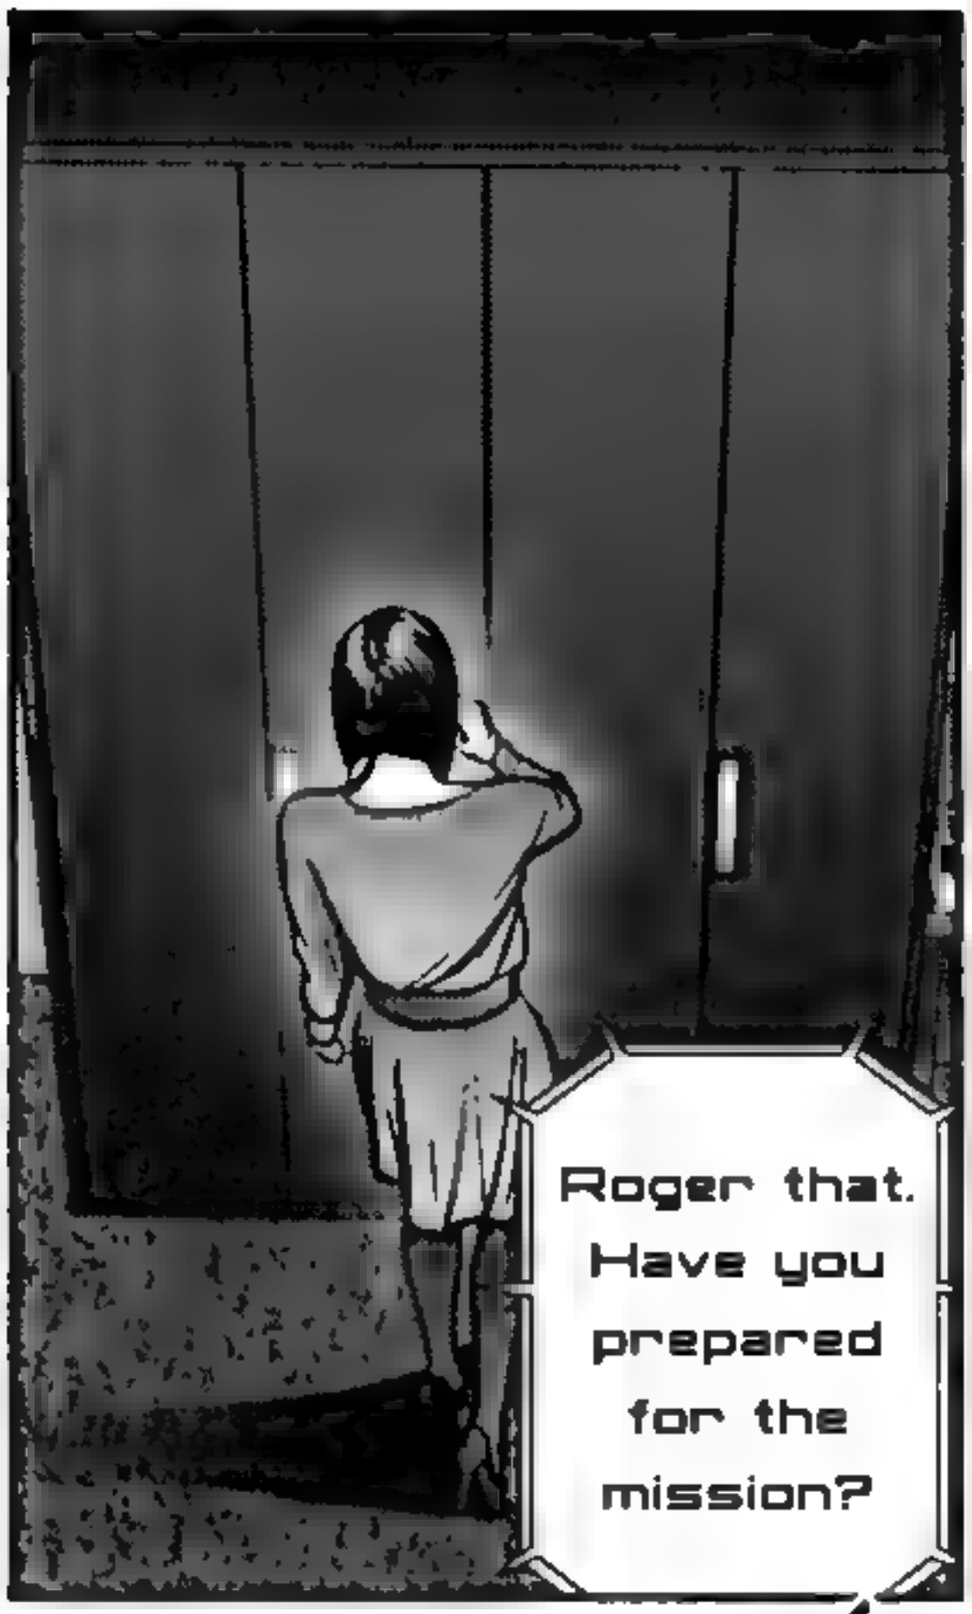
If you want something, you gotta pay the price.

The wash-room. Come in after me in a minute, and suck my dick.

Seri-ously...?

Merry
Christmas
Naomi

Looks like it's going to be a white Christmas

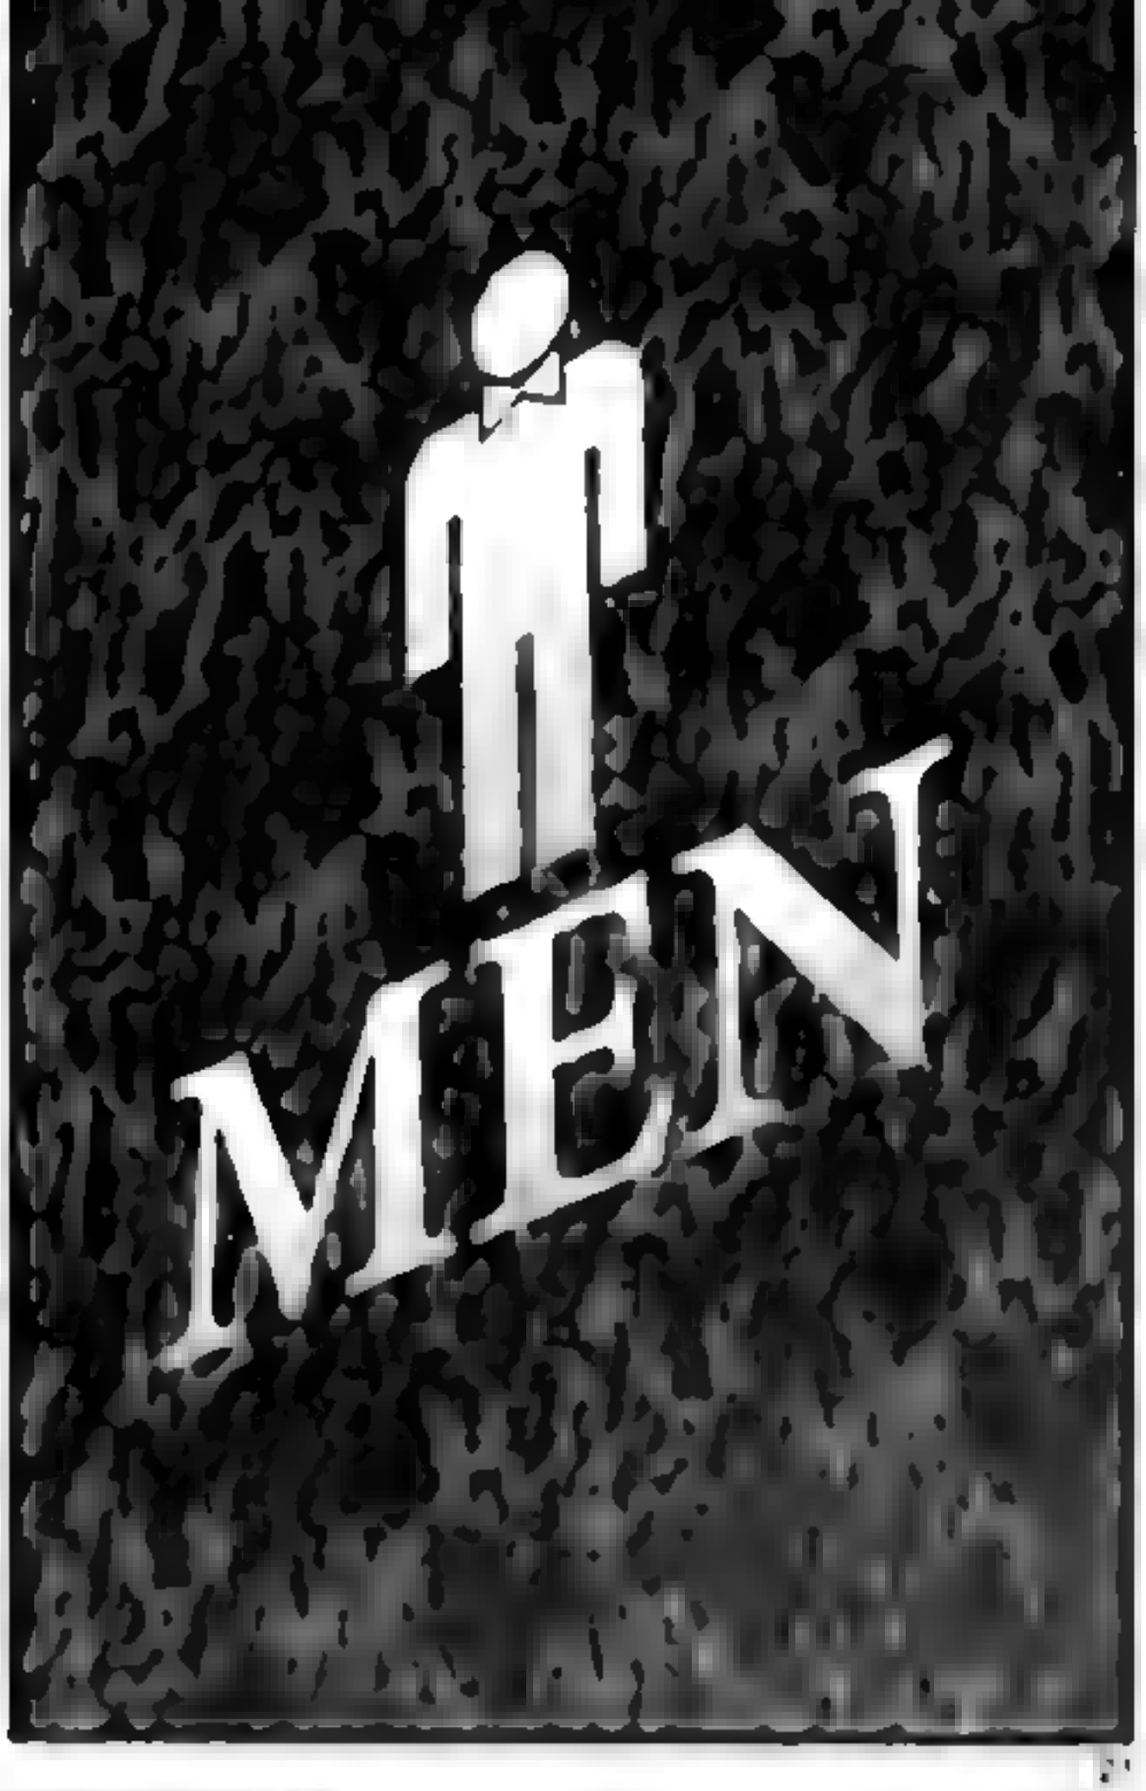


Roger that. Have you prepared for the mission?
Let's see... I'd like a large suitcase.
What would you like Santa to bring you?

Didn't you know? I never prepare for anything.

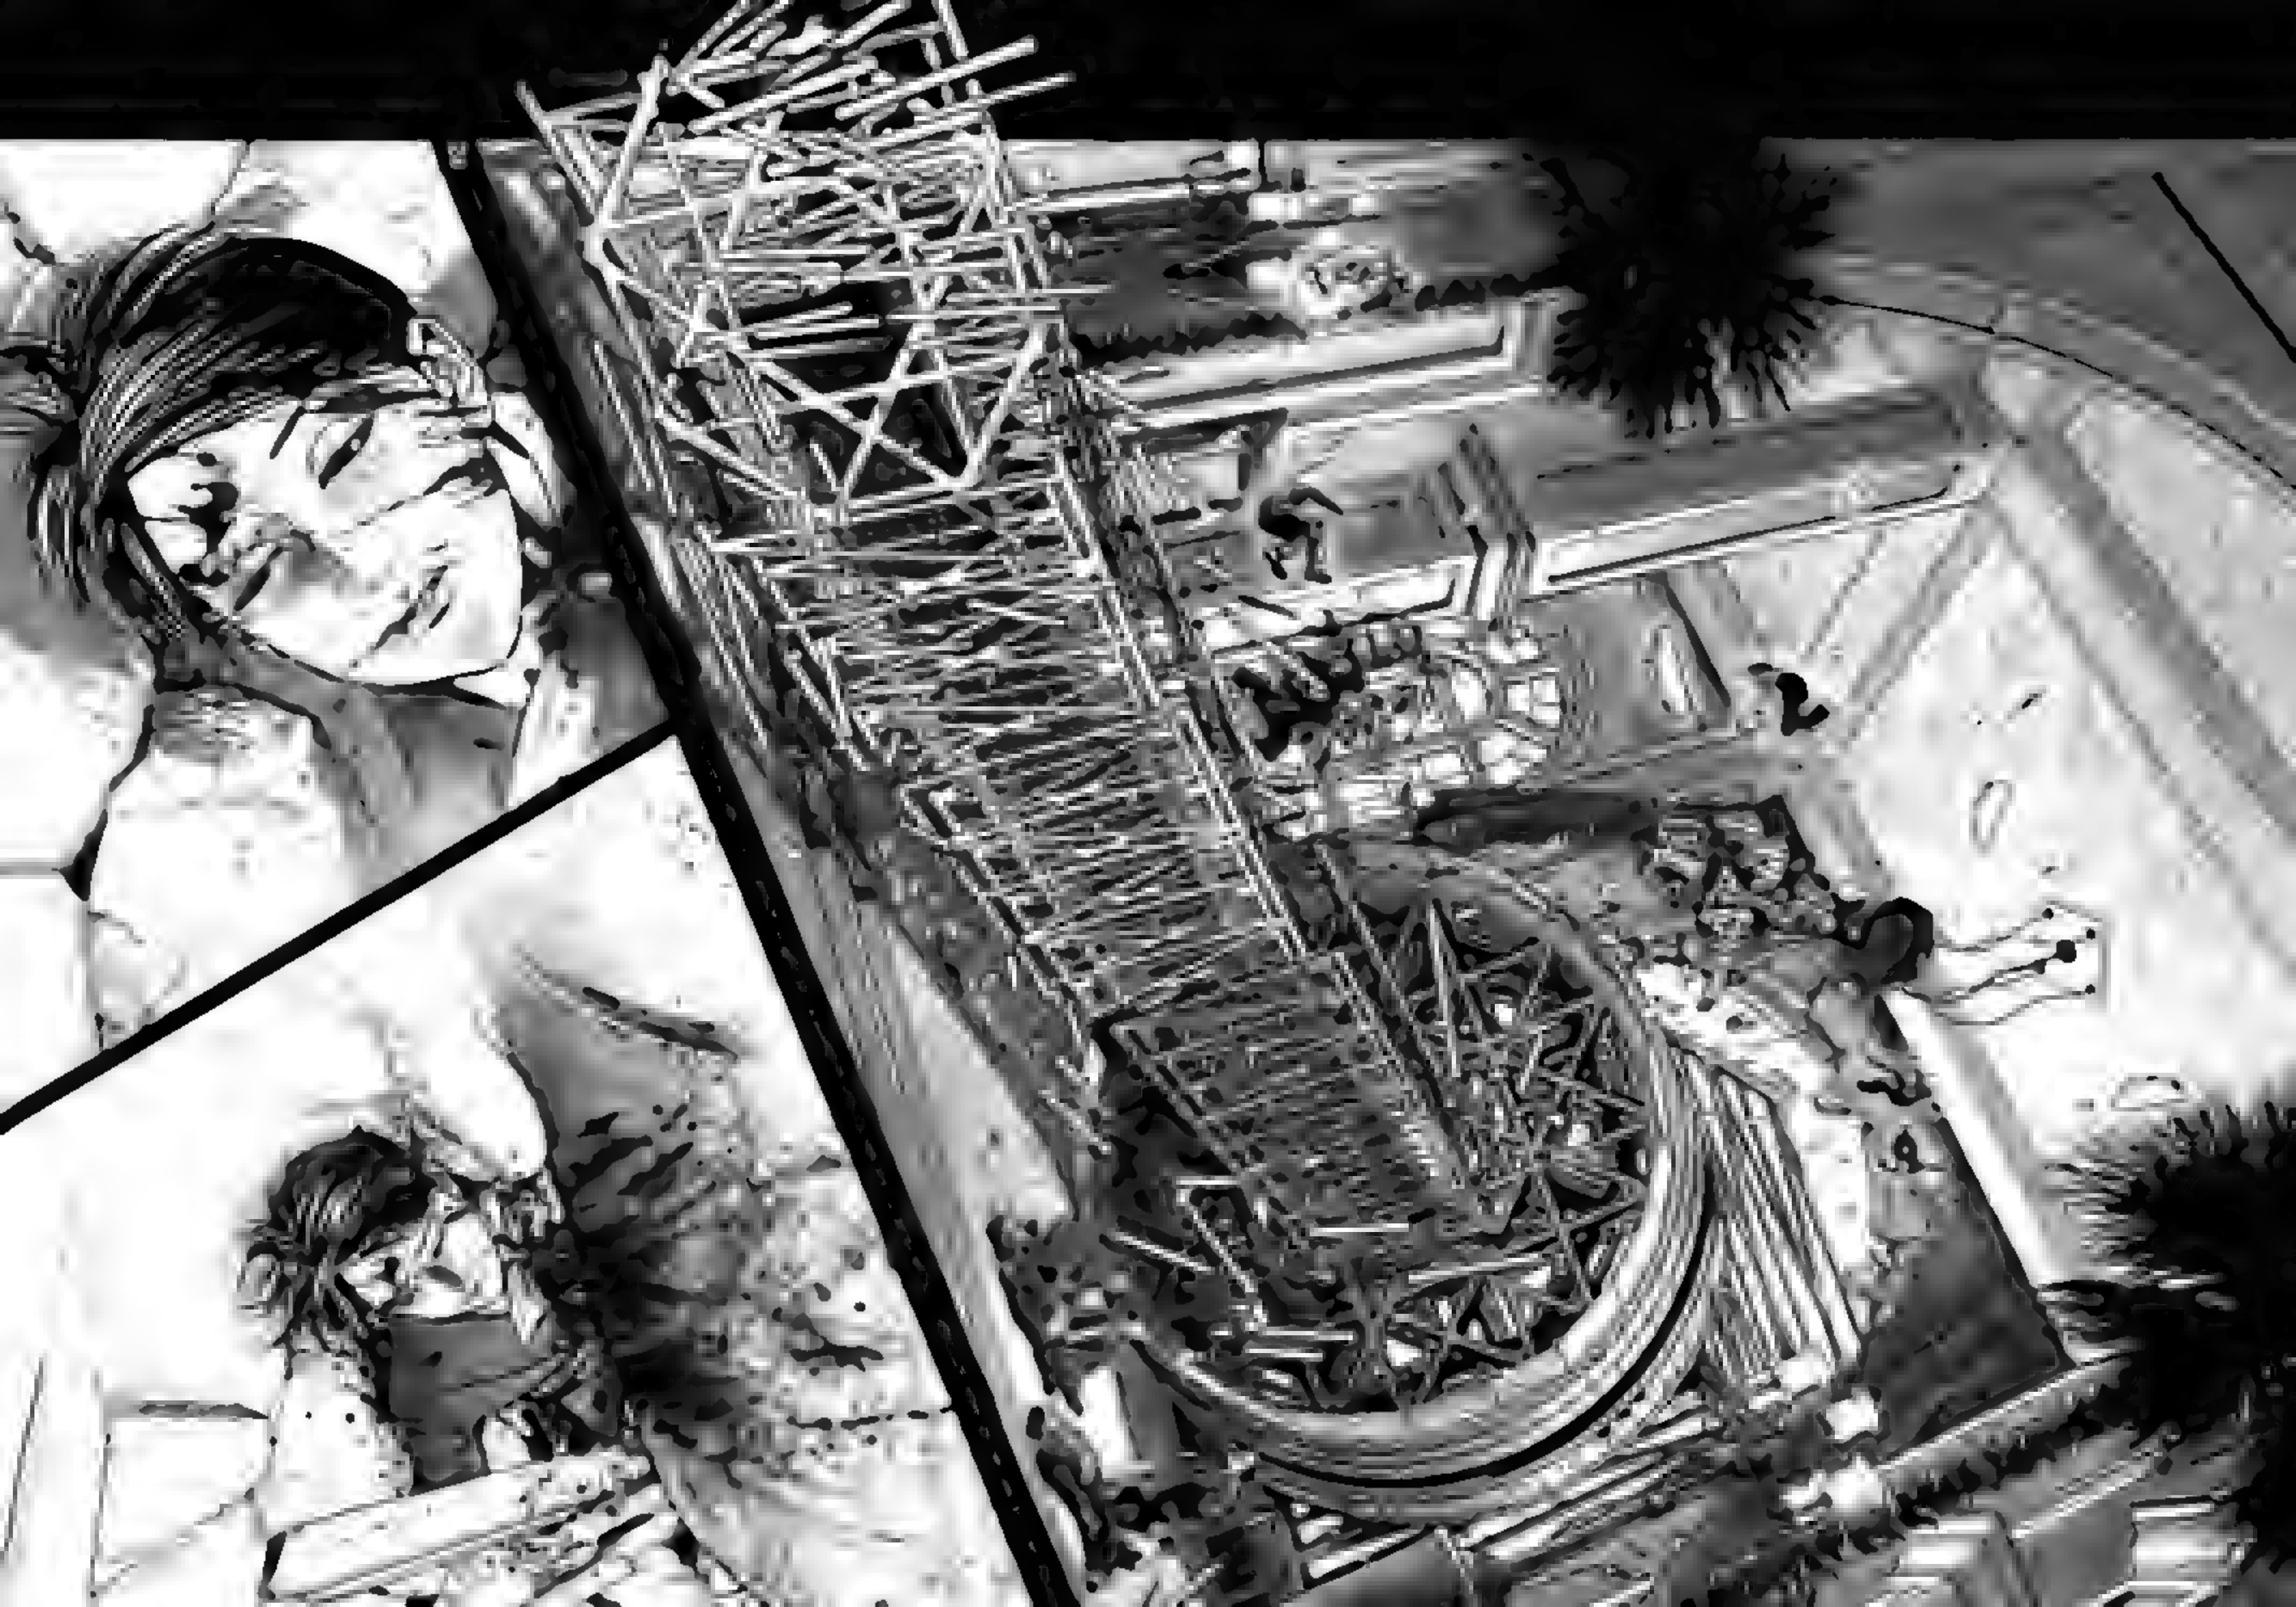
Life is a series of ad-libs.

コツ



MEN

Now get on your knees, pull down my zipper, and say hi to my cock.



I... have to save Yukiko!

コッ!

It even featured in a movie where Tom Cruise played a hitman

It's a gun that CIA agents use for assassinations.

This is a Ruger MK II. It's a .22-caliber long rifle with a built-in suppressor that can muffle the shot, for the most part.

I'll leave that for you to decide at your own risk.

I-Is it real ...!?

Guns aren't all that rare a sight.

There are hitmen here in Japan, just like anywhere else.

I'm not a hitman.

Is he... a hitman?

I've got a special talent. My memory just can't be beat.

Not just your name. I know that you quit baseball in middle school,

and the BWH measurements of your first girlfriend from your high school orchestra.

Huh...?

I know that you went to a first-rate university, but had trouble finding employment,

so you applied for this hotel as a last-ditch effort and miraculously got the job, correct?

30

So that's how you know my history...?

31

I've got all the information of every employee and regular of the Babel nicely stored up in here.

You know of a guest by the name of Ozaki?

KOOL

Yes...

That's for you to figure out. I'm just giving you information.

Look into him...? But how?

Look into him. He seems fishy. He's not just a nasty pretty-boy, that's for sure.

...What is that?

If you find out that Ozaki's the terrorist, use this.

It's hyoscine, a tasteless, odorless, and highly soluble poison.

The queen of mysteries, Agatha Christie, used it in her stories.

Slip it into the target's drink. If you're lucky, the doctor will write it up as a heart attack.

You want me... to kill him?

Hey, I'm just an informant. You're the one old Yang chose, aren't you?

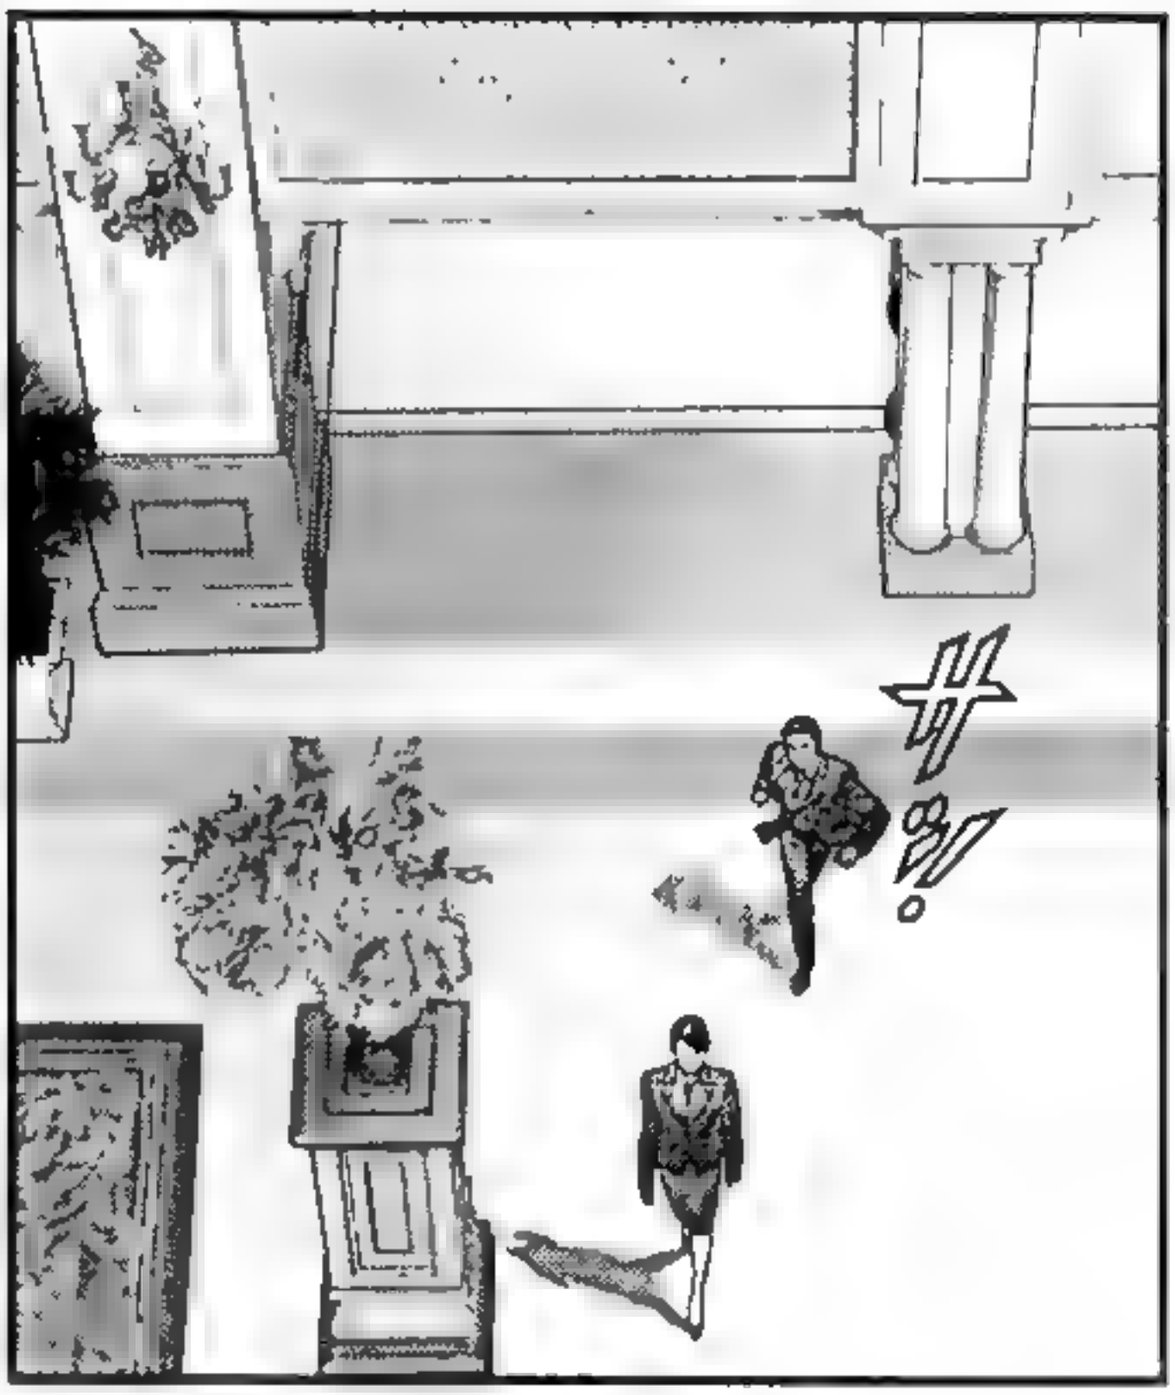
I actually died...

Not at all.

What happened to your back? It almost looks like you were shot...

That's what I thought. If you were shot that much, you'd be dead!

I need to talk to you, Yukiko...
Okay, as long as it's short...



!!

I want you to run as far away into the countryside or overseas as possible.

You want me to take time off?
I want you to take New Year's Eve and New Year's off.

The world's going to be destroyed... What difference does it make where she runs?

Run?

Besides, there's the party on New Year's Eve.

But I can't. They've already put up the schedule.

Oh, right...

I want to warn her to stay away from Ozaki... But what do I say?

WAIT!

Huh?

I'm going back to work now.

Is something wrong?

If the world's going to end anyway...

really ...

I...

Hey! You two! Stop slacking off on the job!

I'm sorry.

Finally, her swim's over...

I take it you met Akiyoshi last night

Yes...

There are hitmen here in Japan, just like anywhere else. Guns aren't all that rare a sight.

It's hyoscine, a tasteless, odorless, and highly soluble poison.

If you find out that Ozaki's the terrorist, use this.

Should you fail to find the terrorist by New Year's Eve, this world will be destroyed.

P-Please, don't put this pressure on me!

As I've told you before, you're the only one that can stop it.

How are you so sure of that? You are too young to truly know who you are.

I'm just an average man with no talents at all.

But... If there's one thing I've learned since I started working at this hotel,

it's that this world is an unfair and cruel place.

The first thing you need to do is understand yourself.

10

...Why did you choose me?

S-
Seven?

There are seven of them, so make sure you follow them all.

You'll learn soon enough. First I need to explain the "rules of time".

...Al-
right.

Let's start with the first two.

The world will be plunged into World War III.

If you die during your mission, it will all be over.

Rule one:
Do not die.

12

Rule two: Pay the price.

Under-stood.

If you want something, you gotta pay the price.

What kind of sacri-fices?

I can stop time for five minutes,

Huh? I'd say about eighty...

How old do I look to you?

and turn it back for seven days, but I have to pay heavy sacrifices each time.

Half of that, actually. I'm turning Forty this year. Aging is the price I have to pay to control time.

Seriously ...?

Not even I know how many more times I can turn back time.

There's a chance that this may be my last time.

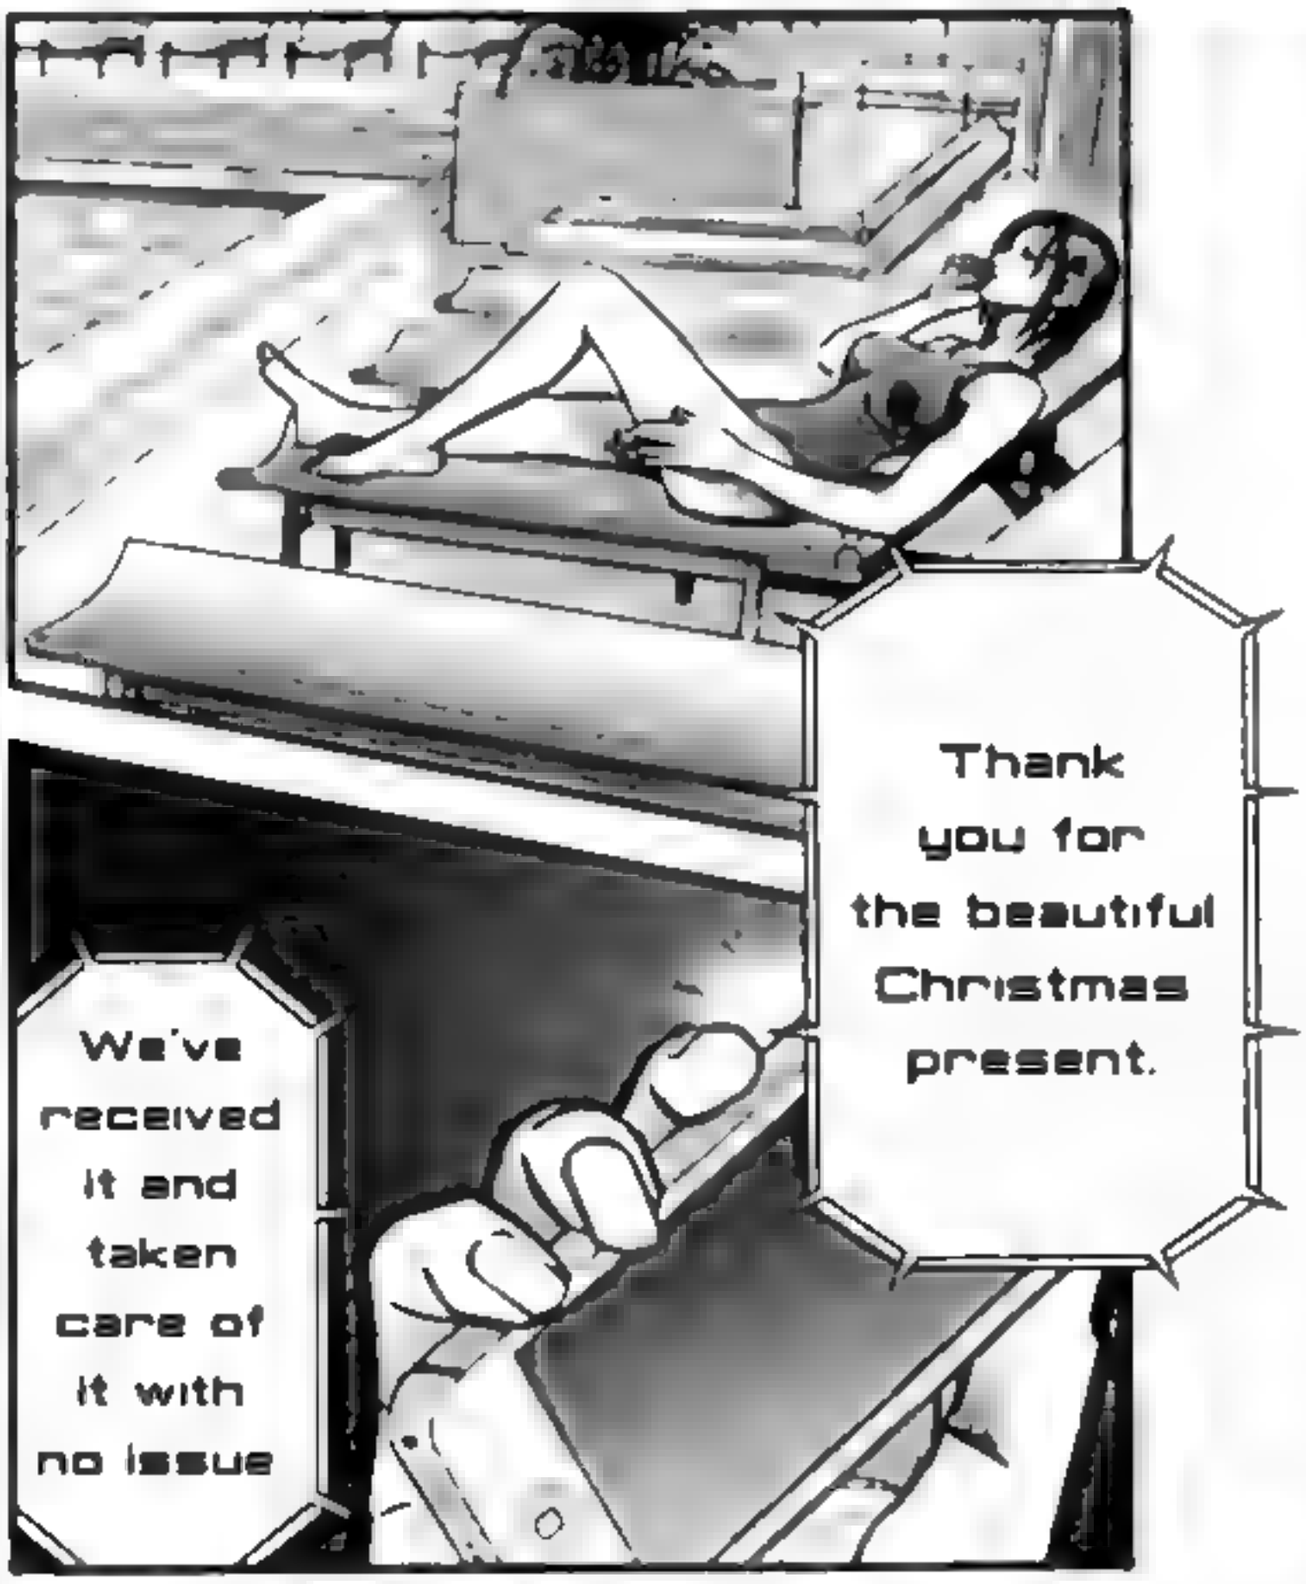
I could even die of old age tomorrow.

This is all predestined, Kota.

That means... that we might not be able to do this over...

16

Good work.



We've received it and taken care of it with no issue
Thank you for the beautiful Christmas present.

130

She was detrimental to our organization

That woman was a "courier"

Not that she herself knew what she was smuggling

That doesn't matter.

Then again, that's exactly why I trust you

Still cold as ice, aren't you?

There be between naw and New Years Eve Max and Claw make the greatest pair

I'm simply doing my job So how many left?

I don't think he would agree.

Urk!

19

...What hap-pened?

女性更衣室
Lady's Dressing room

It can't be...

D-
Do
I?
You look tired, Kota.
Is there something on your mind?

How can I put this . I've been given a rea"y important job, but I'm not so confident that I can see it through.

What kind of job is it?

That sounds really hard.

I have to find a certain guest staying at the Babel, but I don't have any data to go on...

If you're having trouble finding that guest, why don't you ask Madam Mitsuishi?

She just checked in this morning. Rumor has it that she has a real sixth sense.

You mean that fortune-teller?

It sure must be easy to go through life knowing the future.

You'd know the winning lottery numbers, and you wouldn't get in any accidents.

Oh, but I guess a hotel keeper can't ask a guest to tell his fortune.

If the concierge finds out, I'll get a good scolding!

But I guess it'd be kinda boring if you knew who you were gonna marry.

Yukiko, today's Christmas, so there are a lot of guests that are going to want room service to bring them wine.

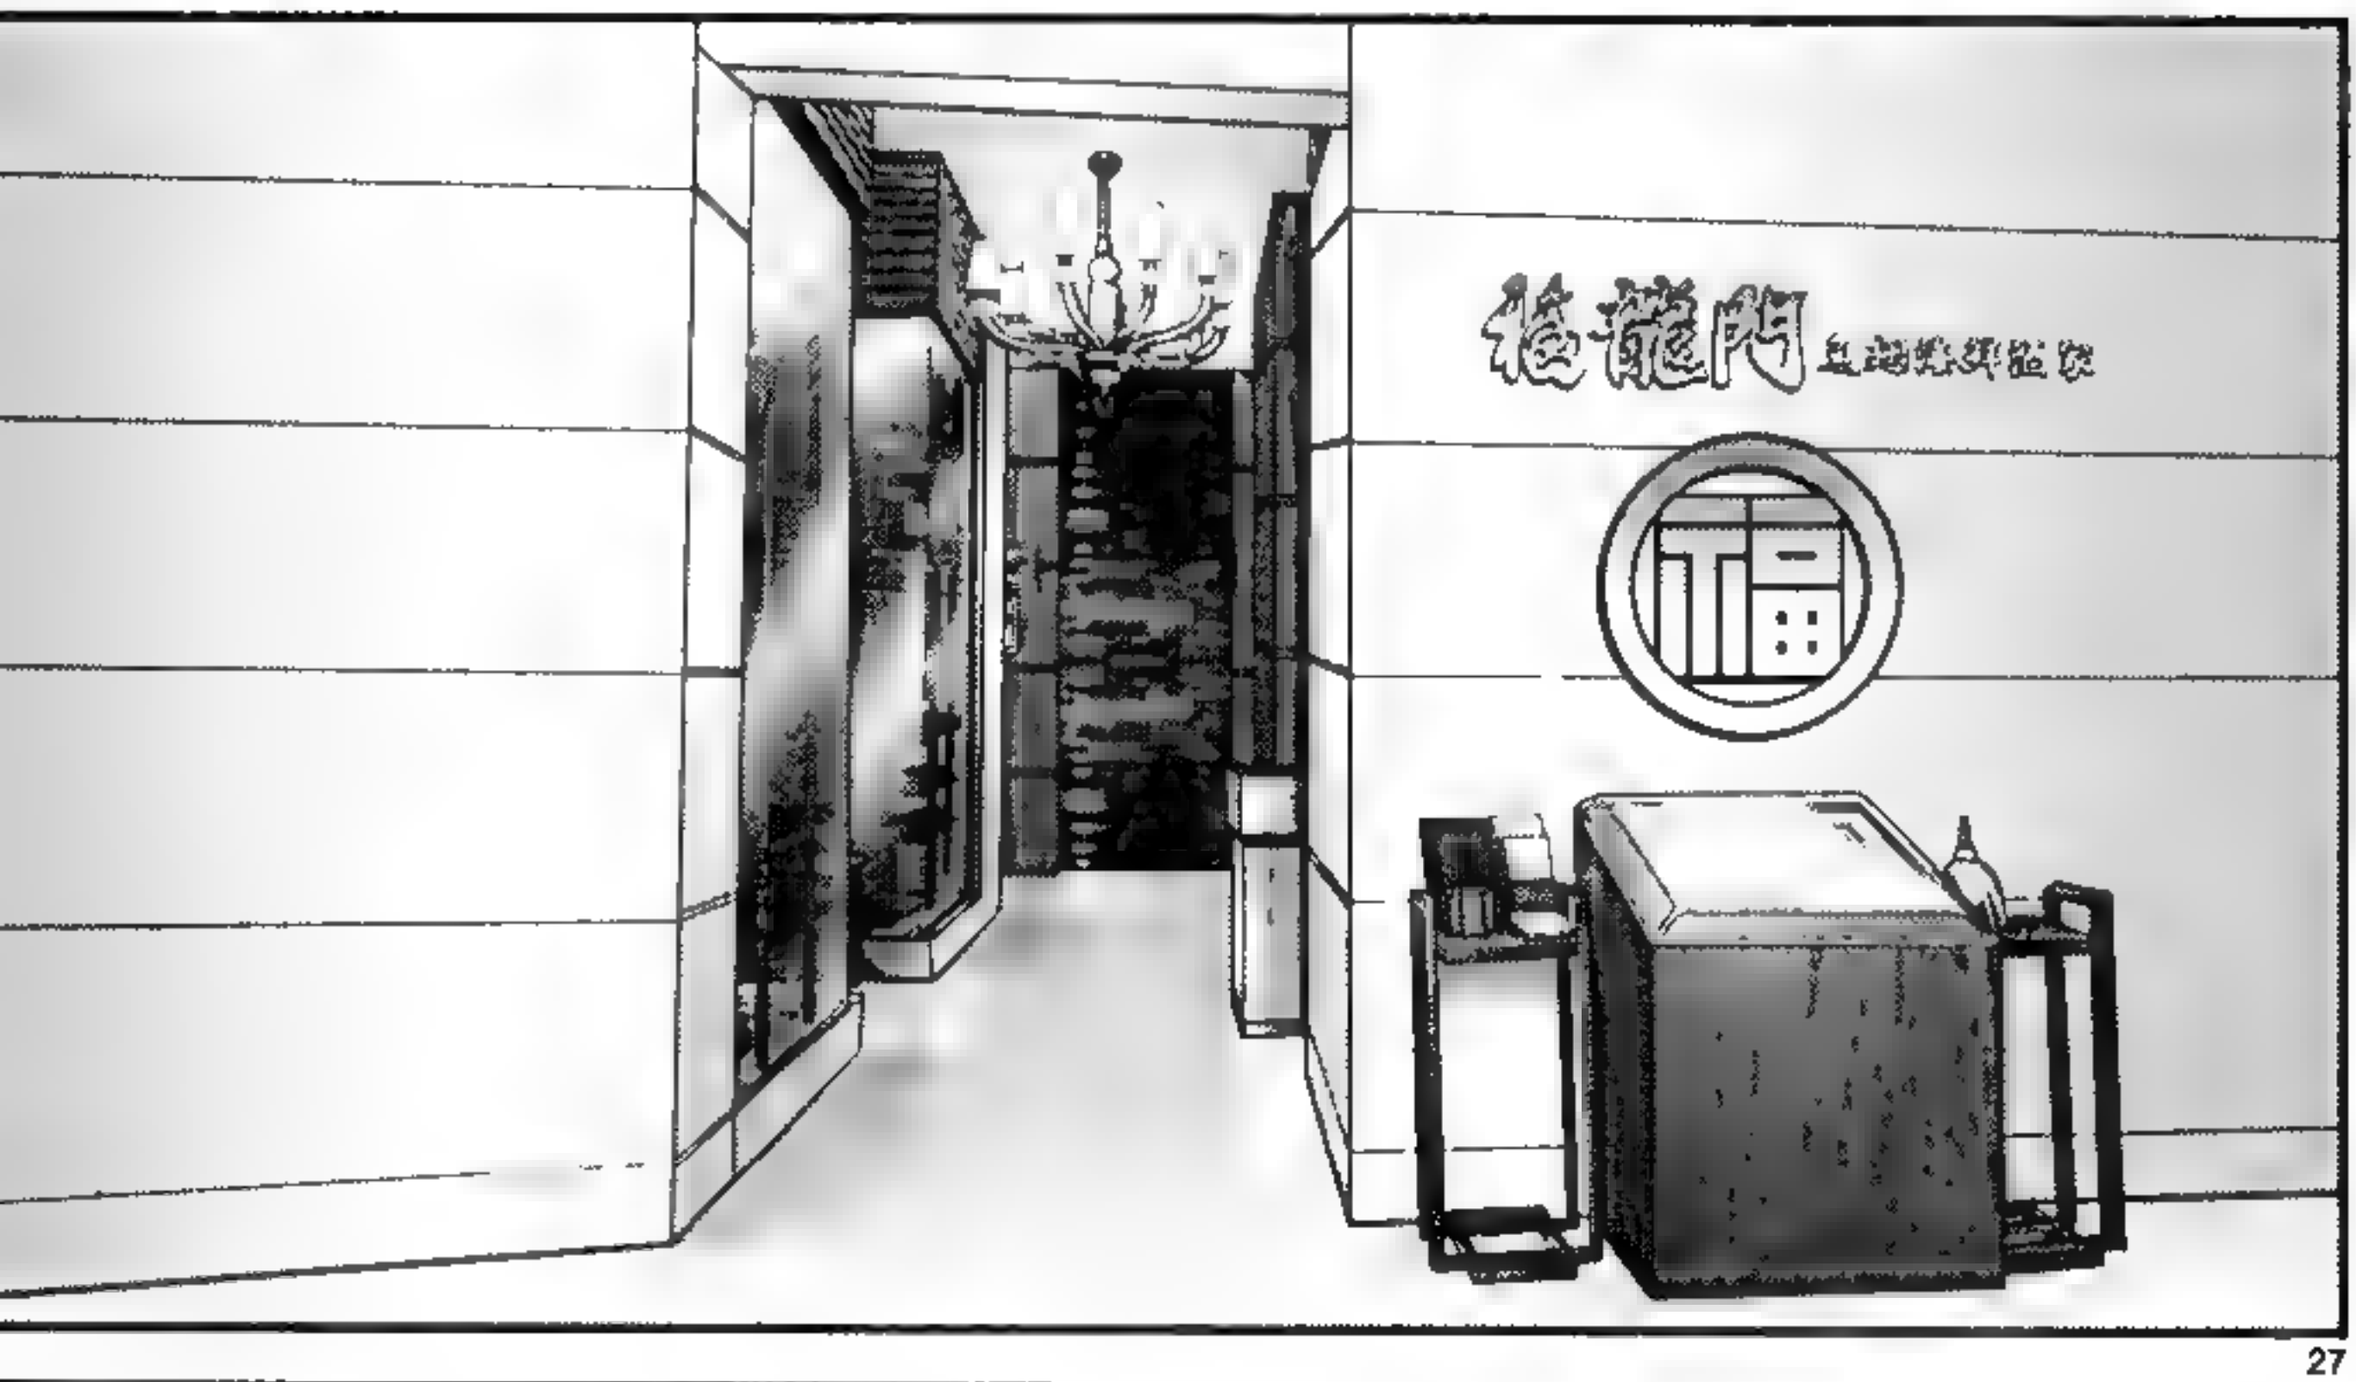
We were flooded with room service requests for sommelier knives at around dinner time, so be careful of that.

I can't tell her that I'd lived through it.

The concierge yelled at Yukiko and me because we ran out of sommelier knives.

ハス〜!

Were flooded...? Why'd you use past tense?



極龍門 魚翅

Fu Long Men

This looks quite delicious. It smells wonderful.

It's a pleasure to see you again, Madam Mitsuishi.

29

Don't bother putting in too many ingredients. Just load it with onions.

I'll have some fried rice, as well.

Very good, ma'am.

28

We have the choicest dried abalone on the menu today.

Oh, dear. What an ill omen.

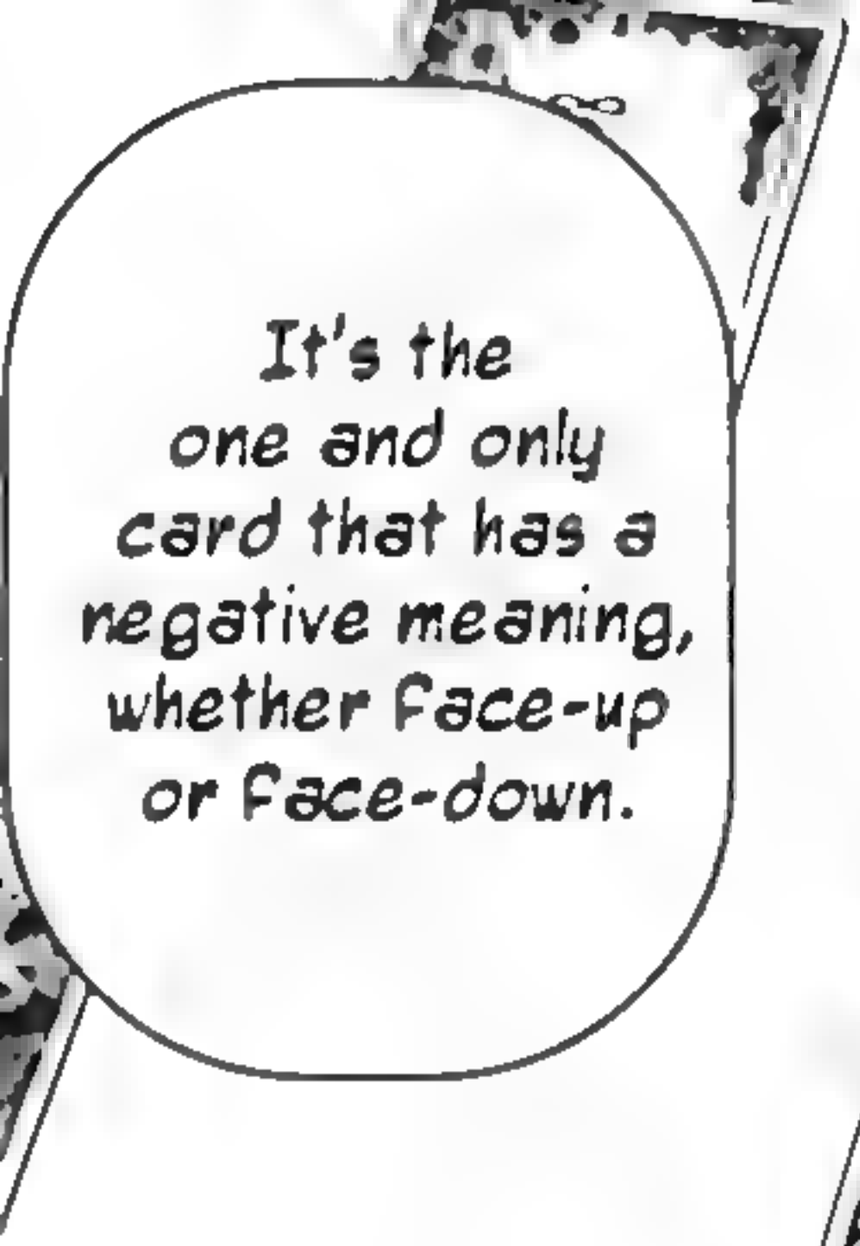
30

What does that card mean?

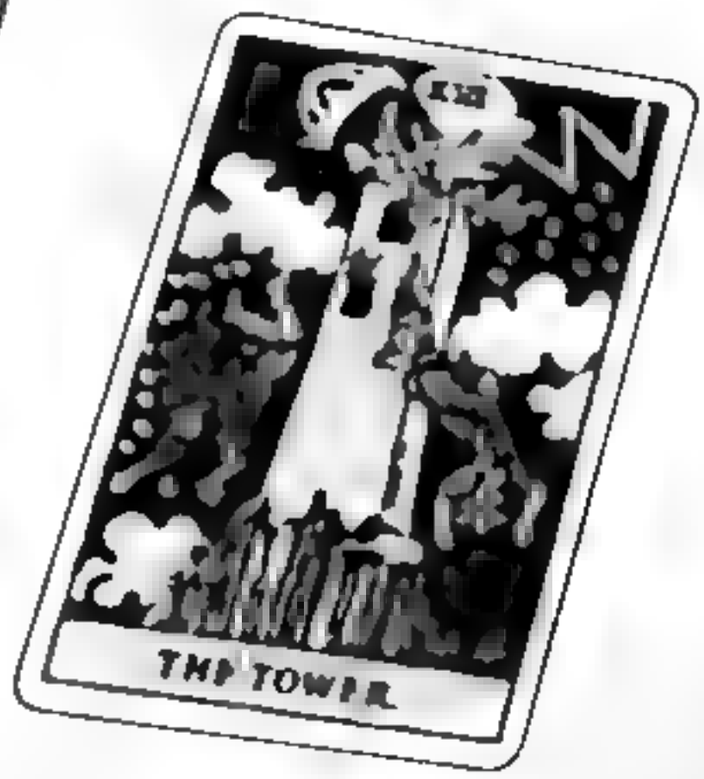
XVI

THE TOWER.

144



It's the one and only card that has a negative meaning, whether face-up or face-down.



"Destruction", "disaster", "crisis", and "sudden accidents".

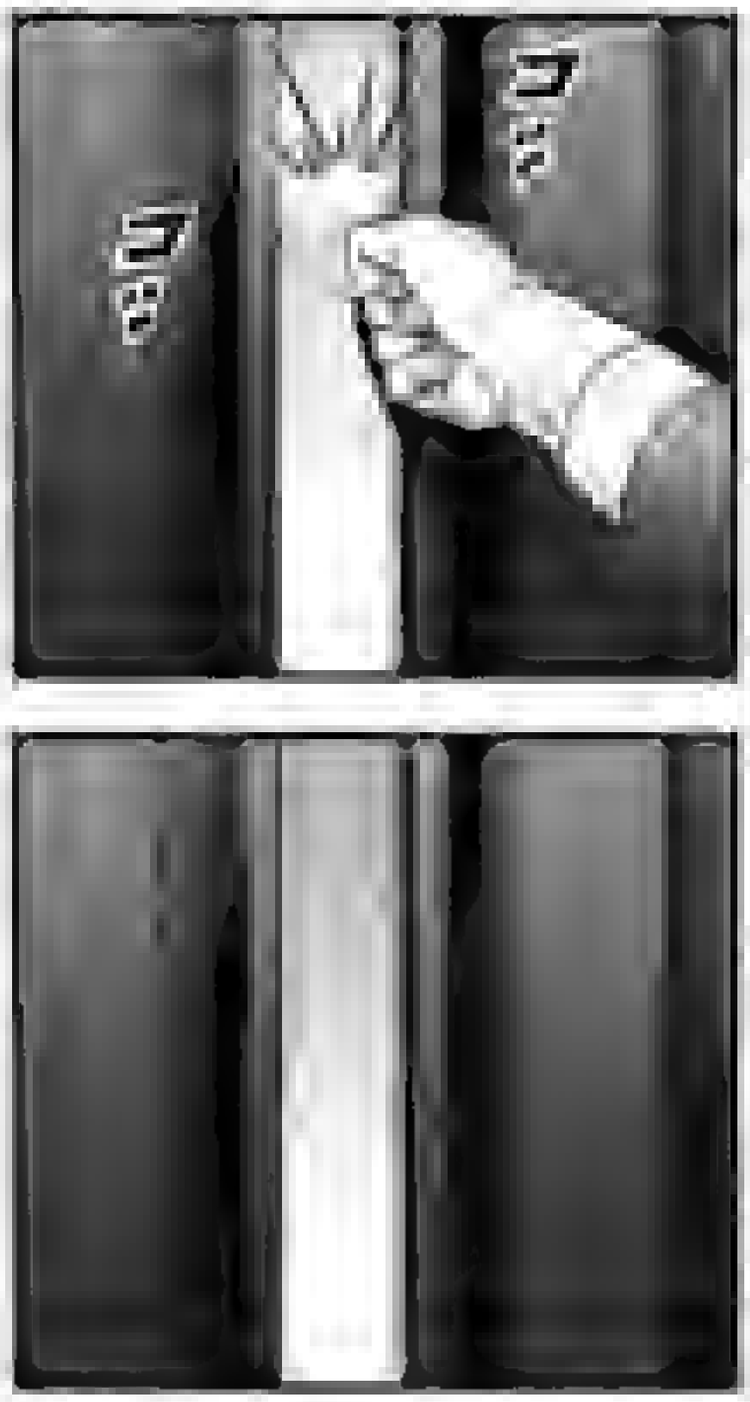
Perhaps there is a tragedy that will soon befall the Babel.

Front

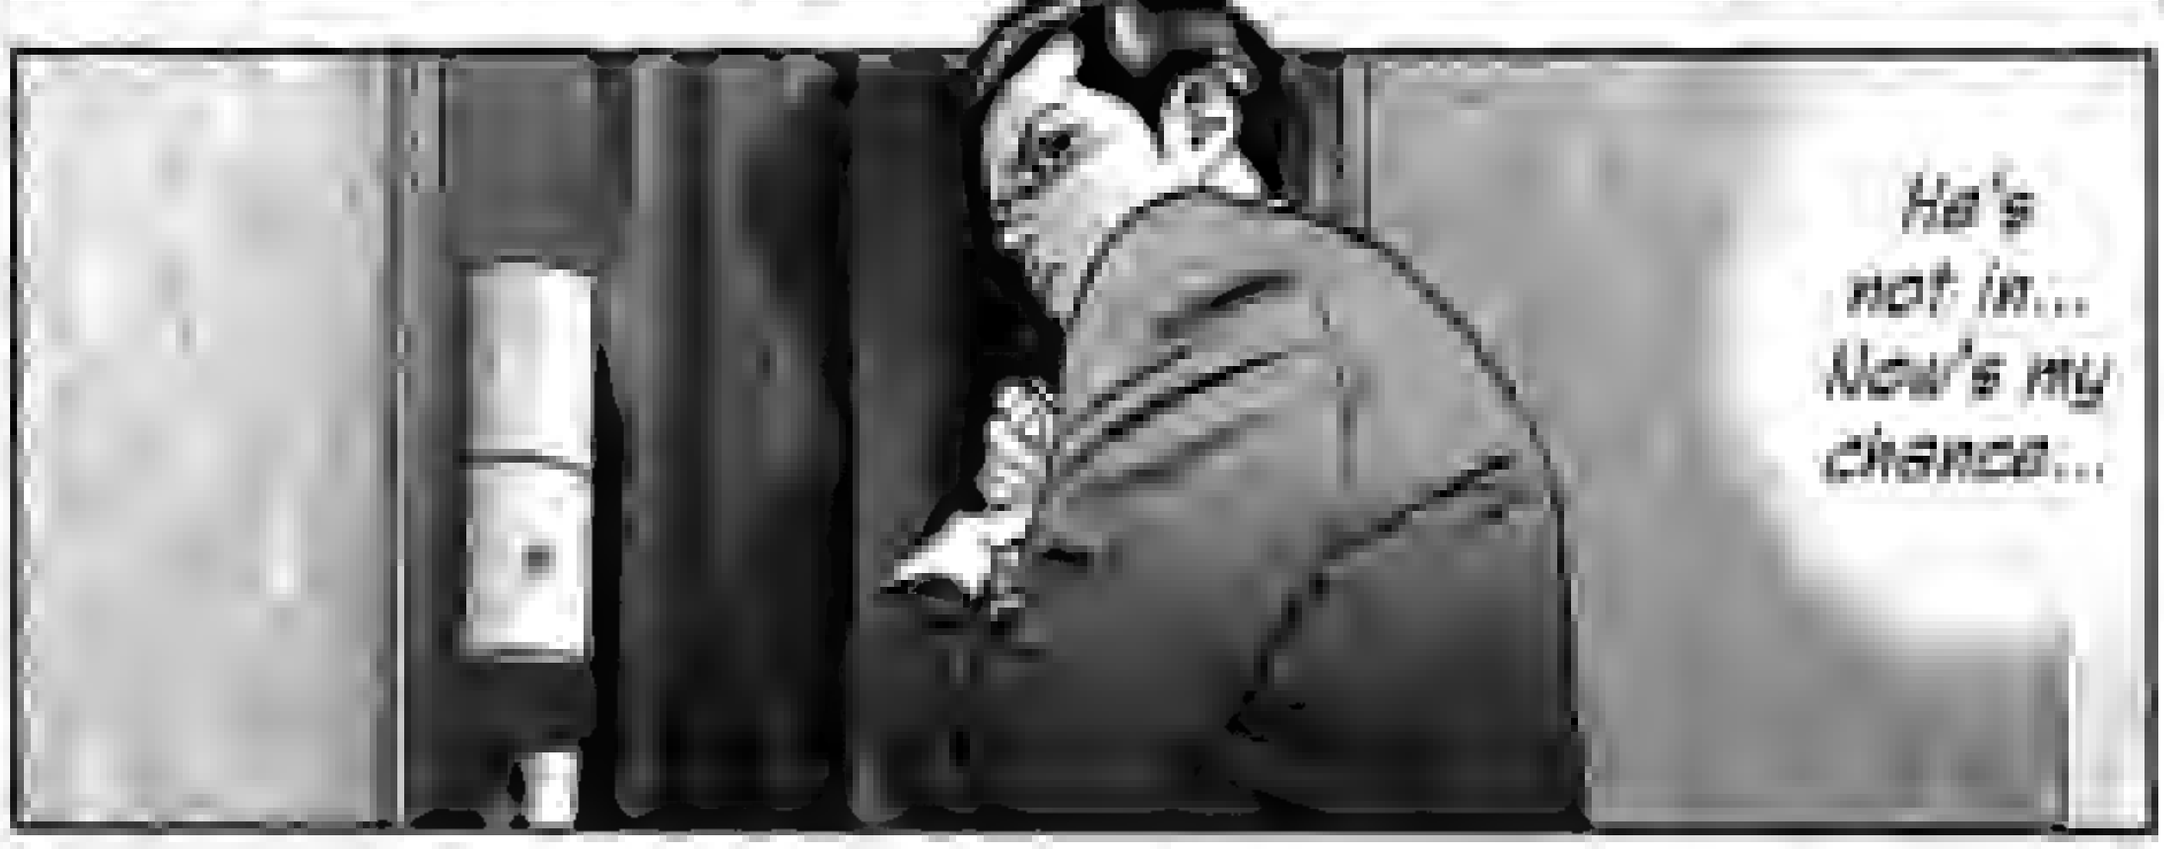
He seems fishy. He's not just a nasty pretty-boy, that's for sure.

Look into him.

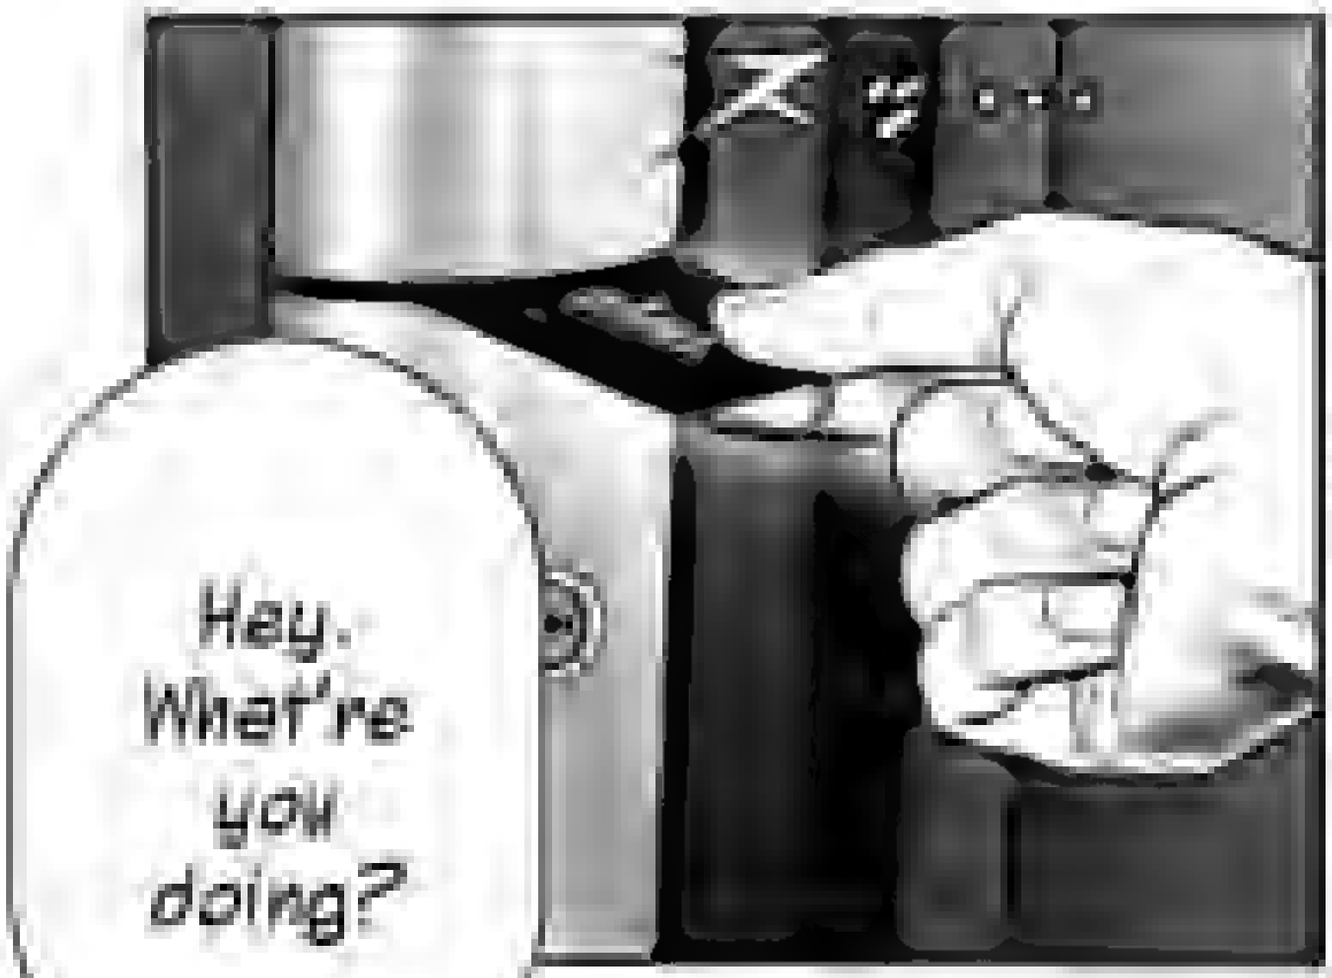
Dammit... I guess I just gotta try.



BANG
BANG



He's not in... Now's my chance...



Z
Hey. What're you doing?

M-Mr. Ozaki!

Shit!

I never asked for room service.

I'm here to deliver the sommelier knife you asked for.

ガーレッ!

My apologies. This was our mistake.

Wait.

What do you want?

Huh? Is something wrong?

N-Noth-ing...

You made eye contact with me a few times before I went to the gym.

You've been following me around all morning.

I just noticed that you looked just like my classmate from back home!

That wasn't my intention at all!

Shit... I've gotta talk my way out of this.

Yes! You were such a spitting image, I was shocked!

Hmm... Do I really look that similar?

Whenever people lie, it shows in their behavior.

It's because they're sub-consciously trying to cover their mouth.

They have a tendency to touch their face. Particularly their jaw or their nose.

You've got a secret that you don't want me knowing about, don't you?

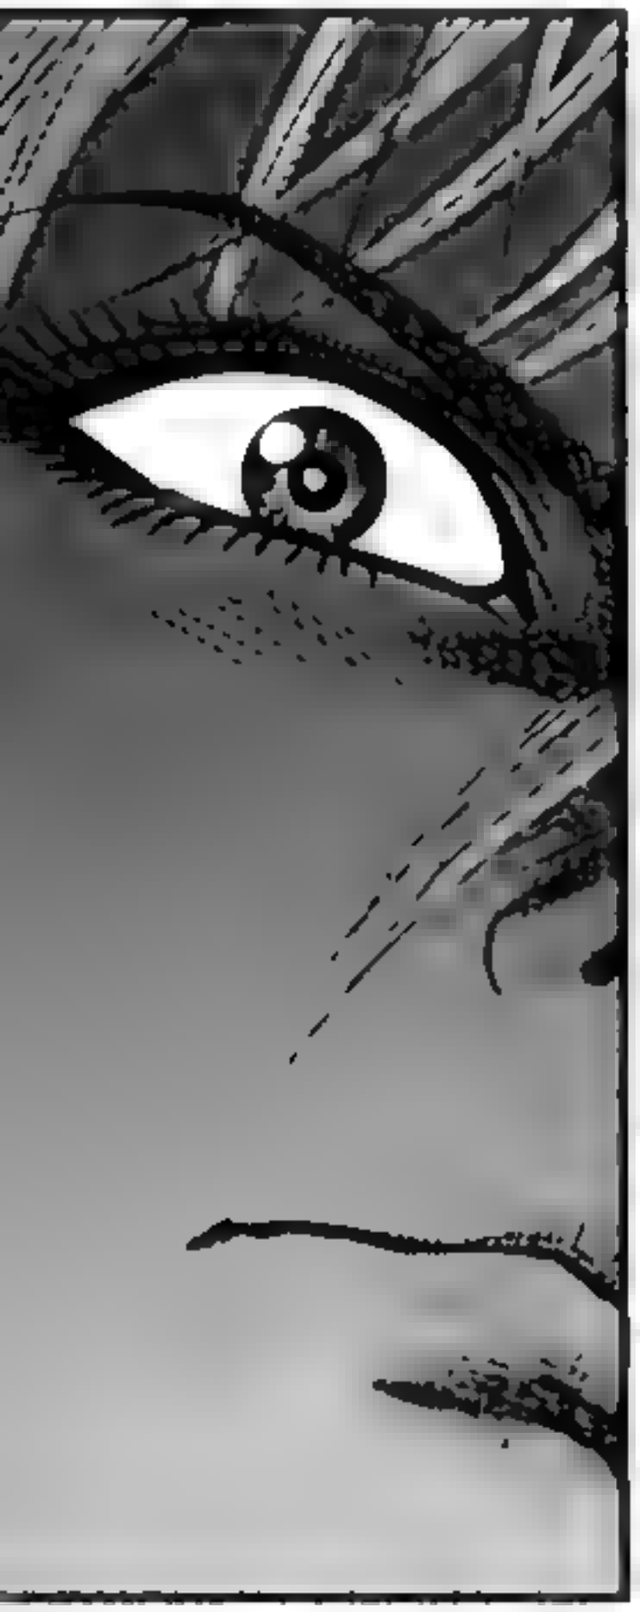
You're feeling the need to lie because you have a clear purpose.

I gotta get out of here...

Now spit it out, before I poke a hole in the middle of your hand.

T-This is just a misunder-standing!

I wouldn't mind a fistfight, myself.



I've never done any martial arts in my life,
but you practice karate! I think you've got the upper hand here!

How do you know I practice karate?
You touched your nose. That means you're lying.

Dammit... That's From the Future...
...Just my intuition.

All the more reason I can't let you leave.

I'll let you have this weapon as a handi-cap.

Eee ek!

I... I can't go back now... But what do I...?

Use it.

My weapon... is my knowledge of the future...

Are you a friend of Naomi's?

No. I've only seen her here at the hotel.

I only know her name.

I've never met her.

Hello! What's going on?

You almost never call me!

Maaah...
Gaahhh
hhhh...

I'm sorry to interrupt your fun.

What do you want, boy?

I can still run... There's still time...

How are you so sure of that?

You are too young to truly know who you are.

Why me...? I can't do it...

The first thing you need to do is understand yourself.

I'm done running... I have to change myself!

Hey. Answer me.

ゴゴゴ

My weapon... is my knowledge of the future!

23:57

Did you enjoy life to the fullest?

You pass the test.

I only knocked him out. My job was to keep this bodyguard away from Tony Hsienloong.

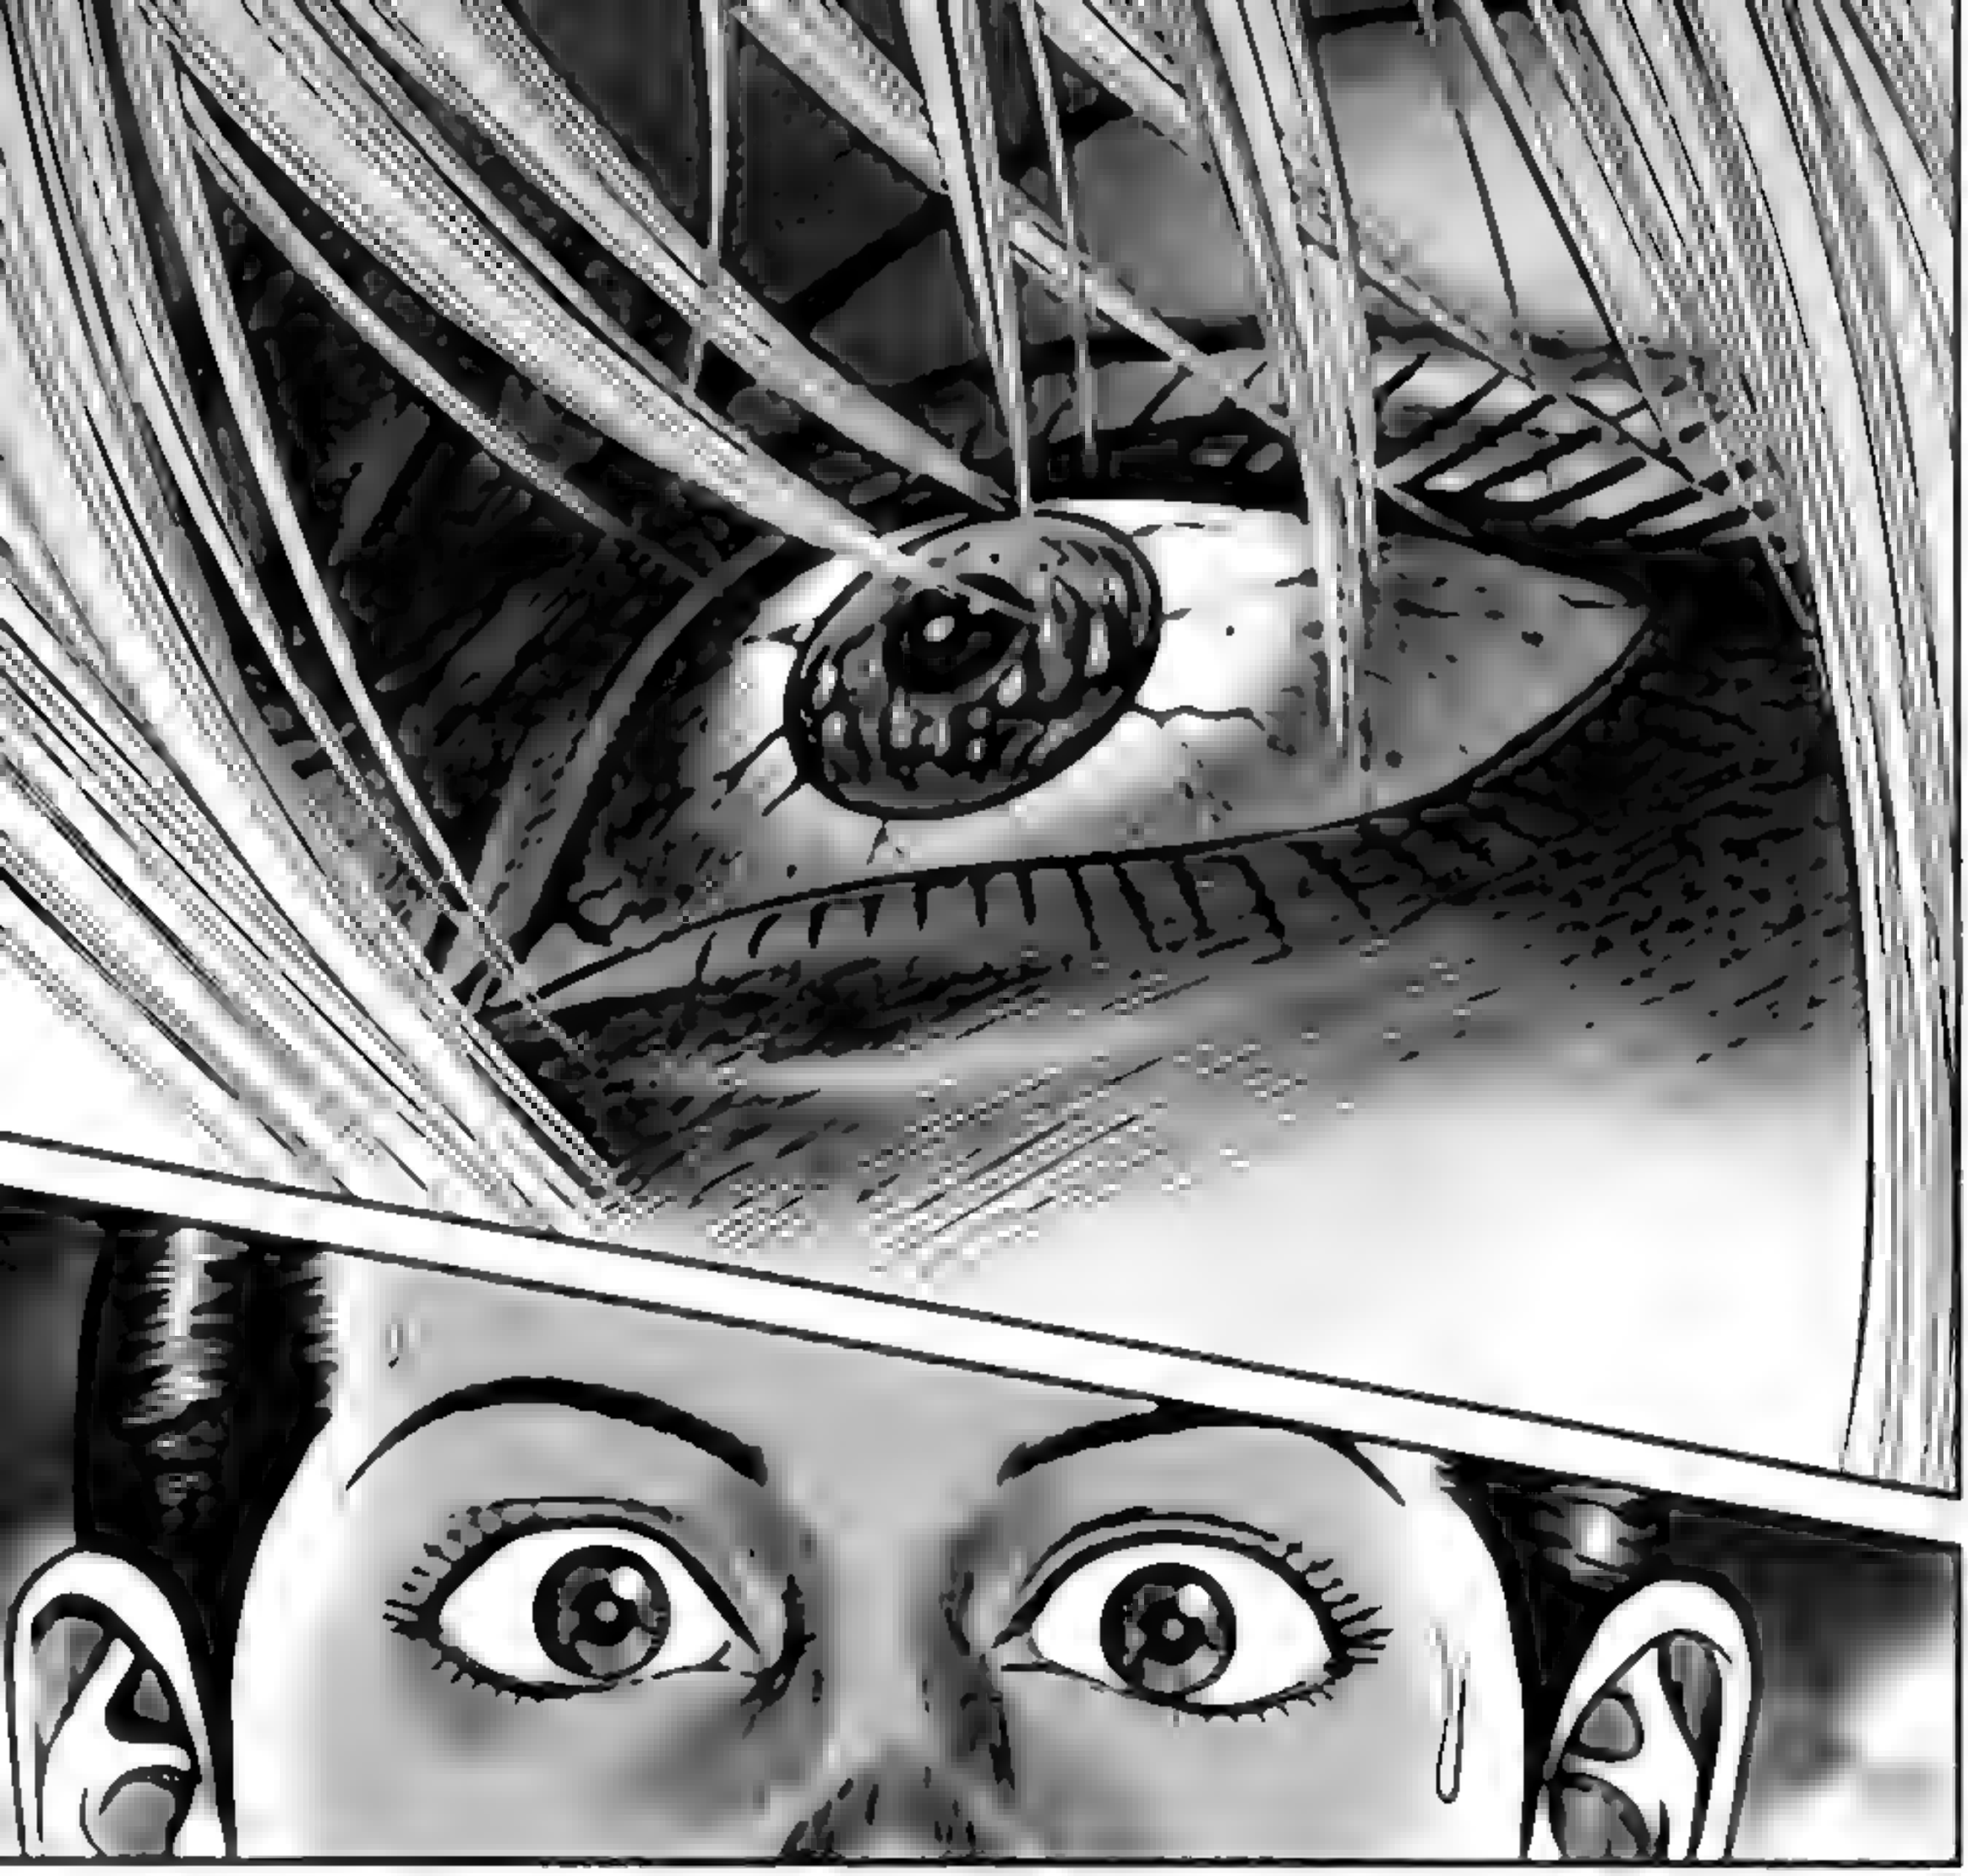
D-Did you kill him!?

I'm a rookie in the organization, myself. They only let me handle odd jobs.

...What organi-zation?

I don't know what's going on in there.

You don't know ...?



Organization ? Is he the terrorist ? Or is it someone in his organization ?

I'll tell you if I get the chance.

Huh?

I hit on him.

By the way, how'd you get him to the room?

Was this in the future?

This man's gay.

I remember him hitting on one of my colleagues.

...It's the past to me.

You're an interesting guy. What's your name?

!!

Kota... Hata Kota.

The name's Ozaki Yosuke.

I would've had a lot harder time than you.

That bodyguard wouldn't have dropped his guard if it hadn't been you hitting on him.

I've made up my mind. I'm gonna make you my partner.

With someone who knows the future at my side, my dream will come true for sure.

...His dream? Well, I'm using him myself...

And I won't give in!!
